PROFESSIONAL SUMMARY

Business Analyst with 1+ year of experience in product implementation, client consulting, requirement gathering, CRM management, and stakeholder coordination. Experienced in supporting 26+ SME clients and 250+ end users through successful implementation of field management software. Skilled in BRD/FRD documentation, UAT coordination, and business process understanding, with working knowledge of SQL, Power BI, Excel, and Python.

EXPERIENCE

Business Analyst

Jun 2025 – Present

Enjay IT Solutions Ltd. – Sarathi Field Tracking Application

Gujarat, India

- Managed end-to-end product implementation and client onboarding for 26+ SME clients and 250+ end users.
- Conducted client-facing requirement-gathering sessions to capture business needs and translate them into BRD and FRD documentation.
- Acted as the primary communication bridge between clients and internal development teams throughout the implementation lifecycle.
- Coordinated User Acceptance Testing (UAT) activities, tracked defects, and ensured timely resolution before go-live.
- Facilitated user training sessions that accelerated product adoption and reduced post-launch support requests.
- Managed CRM operations, maintained customer records, and monitored client interactions for service quality.
- Tracked multiple project timelines simultaneously, ensuring on-schedule delivery of implementation milestones.
- Collaborated cross-functionally with product, technical, and support teams to resolve client issues and deliver requirements on time.

Business Analyst Intern

Jan 2025 – May 2025

Enjay IT Solutions Ltd.

Gujarat, India

- Assisted in product implementation activities and provided support during client onboarding and post-go-live phases.
- Supported requirement-gathering exercises and maintained documentation for business and functional requirements.
- Maintained CRM records, updated customer information, and assisted in issue tracking and resolution.
- Coordinated with team members to support project milestones and client communication activities.

PROJECTS

Sarathi Field Tracking Application – Product Implementation

- Supported full-cycle product implementation for SME clients, including requirement gathering, process mapping, and stakeholder coordination.
- Facilitated user onboarding and training sessions to drive adoption of the field tracking platform across 250+ users.
- Coordinated UAT cycles, captured feedback, and worked with the product team to resolve functional issues before deployment.

Sales & CRM Performance Dashboard

Power BI, Excel

- Built interactive dashboards to track sales KPIs, customer performance metrics, and revenue trends for business stakeholders.
- Performed data cleaning and transformation in Excel; created calculated measures and visualizations in Power BI for actionable insights.
